

BIRTHING CENTER CLOSURE

Effective February 5, 2011 the Birthing Center at John C. Lincoln North Mountain is closed.

Although North Mountain Hospital was an anchor for north-central Phoenix's Sunnyslope neighborhood, there remains many options for maternity care at other Phoenix-area hospitals. John C. Lincoln does not have an obstetric unit at its hospital in Deer Valley.

Make sure you discuss with your physician their plans for scheduling your delivery. Please contact Care1st Member Services at 602.778.1800 or ONECare Member Services at 602.778.8345 at any time for assistance with contracted facilities in the Care1st and ONECare network, choosing a physician, etc.

Thank you!
