

ICD-10 IS HERE!

DAYS
0

September 30, 2015

Dear Providers and Office Staff:

Implementation Deadline

ICD-10 replaces the current ICD-9 coding for the classification of disease or health condition, symptoms, and causes, used by hospitals, providers, and others, and is required to be implemented for *outpatient dates of service on or after October 1, 2015 and inpatient dates of discharge on or after October 1, 2015.*

Prior Auth Submissions

- Authorization requests submitted on or before September 30, 2015 are submitted with ICD-9 codes.
- Authorization requests submitted on or after October 1, 2015 are submitted with ICD-10 codes.
 - Please follow the guidelines above. Requests with incorrect coding will be pended for more information and delay the processing of your request and your request may be voided as incomplete if we are unable to obtain the proper coding information from your office.

Claim Submissions

- Claims for dates of service or dates of discharge on or before September 30, 2015 are submitted with ICD-9 codes.
- Claims for dates of service or dates of discharge on or after October 1, 2015 are submitted with ICD-10 codes.
 - For example:
 - UB04 Inpatient claims with dates of service than span across 10/1 are submitted with ICD-10 codes.
 - UB04 Outpatient claims must be split to submit separate claims for service dates 9/30/15 and prior with ICD-9 codes and claims for services dates 10/1/15 and after with ICD-10 codes
 - CMS1500 claims must be split to submit separate claims for services with dates of service 9/30/15 and prior with ICD-9 codes and claims for services with dates of service 10/1/15 and after with ICD-10
- Claims for dates of service 10/1/15 and after may be billed with an ICD-10 code and can be processed without issue even if the authorization was obtained prior to 10/1/15 with an ICD-9 code(s).

Provider Information

- Provider resources are available from CMS to help with the transition of ICD-9 to ICD-10. The CMS link is <http://www.cms.gov/Medicare/Coding/ICD10/ProviderResources.html>.

Please share this information with your prior auth, coding and billing departments.

Thank You!
