

DENTAL INCENTIVE PROGRAM UPDATE

October 30, 2015

Dear Care1st Dental Providers:

Care1st and our dental administrator, Advantica, want to thank you and provide an update to all providers currently enrolled in the Dental Incentive Program. We appreciate your demonstration of our shared interest in ensuring our members/your patients receive quality dental care and hope we can make positive impact to the volume of members seeking care.

In our original communication, Care1st advised you would be provided a Services Required Report by mid October. The Report is still being finalized and is currently scheduled for delivery in mid November. This report will assist you by identifying assigned members that should be contacted to schedule services. We apologize for the delay but this in no way will impact your incentive payments.

As a reminder, additional details of the program can be located on our website at www.care1st/az > Providers > Blast Faxes > Dental Incentive Program – 09/01/2015

If you would like additional details regarding the Care1st Dental Incentive Program, information is available by e-mailing pipregistration@advanticabenefits.com or by calling 727-674-7034.

Thank you!!!
