Dear Care1st Dental Providers:

We're excited to notify you that the Care1st Dental Incentive Program, designed to reward the efforts of dentists who place a priority on prevention of dental disease in children, will continue for Contract Year 2019, i.e. 10/1/18-9/30/19. For dates of service 10/1/17-current, we have paid out more than **\$205,000** in incentive payments for **13,007 members**.

The Incentive Program's goal is to increase utilization of select services by AHCCCS patients under age 21 that are identified in the **Services Required** Report available via Advantica's Secure Provider Portal at [www.advanticabenefits.com](http://www.advanticabenefits.com) > Providers > Provider Login > Care1st Incentive Report.

The Services Required Report lists the Care1st members assigned to your practice that have not yet received a preventive care visit during the contract year, i.e. 10/1/18-9/30/19. The members listed are eligible for an incentive program payment should they complete a qualifying visit at your practice.

Registered dentists are eligible to earn a financial incentive payment of **\$15** per patient whose treatment includes at least one dental procedure listed in the Eligible Program Services section on page 2 of this letter.

The Care1st Dental Incentive Program is limited to one incentive payment per patient, regardless of treating dentist. Eligible dental services must be rendered between 10/1/18 and 9/30/19. Patients are required to receive treatment from their assigned AHCCCS dentist, with the exception of group practices where the dentists share the same Tax Identification Number.

**If you have not already registered for the Care1st Dental Incentive Program, please complete the Provider Registration Section of this letter and email or fax it to Advantica ASAP. Within two business days, a program confirmation message will be sent to your office email address if provided or by fax.**

*\*\*Please Note: Practices currently enrolled in the Care1st Dental Incentive Program will remain enrolled for contract year 2019 and do **not** need to complete the registration process again.*
