AHCCCS Provider Enrollment Portal (APEP) Launches August 31

As of August 31, 2020, all new providers, as well as existing providers who need to update their accounts, will use the [AHCCCS Provider Enrollment Portal \(APEP\)](#). This online system, available 24/7, streamlines the provider enrollment process and eliminates the need for paper-based applications.

HOW TO LEARN TO USE APEP

AHCCCS has created several tools to help providers understand the new APEP system.

[Tutorial documents](#) are available here for the following provider types:

- Facility / Agency / Organization (FAO)
- Atypical Individual
- Atypical Agency
- Group Practice
- Individual
- Modification Request

Two training videos are available on the [AHCCCS Provider Enrollment web page](#), one on How to Register, and another on the Enrollment Process.

From August 17-28, AHCCCS will conduct facilitated training sessions for providers. Instructions on how to enroll in APEP training will be announced soon.

We are available to answer any questions providers may have about APEP. Please email us at APEPTrainingQuestions@azahcccs.gov.
