

# Clinical Practice Guidelines Available on Care1st Website

April 11, 2023

Care1st provides the tools and support you need to deliver the best quality of care. To this end, we want to ensure that all practitioners are aware of **how to access the Clinical Practice Guidelines available on the Care1st website.**

Go to <https://www.care1staz.com/providers/resources.html> > For Providers > Provider Resources > Practice Guidelines .

The screenshot shows the Care1st website interface. At the top left is the Care1st Health Plan Arizona logo. To the right are navigation links: Home, Find a Doctor, Contact, and In a Crisis?. A search bar with the text 'Enter Keyword' and a 'Search' button is also present. Below these are utility links for Contrast (On/Off) and language settings. A blue navigation bar contains four main categories: FIND A DOCTOR, FOR MEMBERS, FOR PROVIDERS, and COVID 19. The 'FOR PROVIDERS' section is expanded, showing a list of options: Login, Become a Provider, Pre-Auth Check, Pharmacy, Provider Resources (highlighted with a blue arrow), Manuals, Forms and Resources, Care Management Program, Practice Guidelines, Disease Management, and Forums. The main content area is titled 'Provider Resources' and contains text explaining the tools and support provided. Below this is a section titled 'Choosing Wisely' with text about the initiative and a link to [choosingwisely.org](https://www.choosingwisely.org). To the right of the text is an image of a cactus with a red flower.

Preventive and clinical practice guidelines are based on the health needs of our members and opportunities for improvement identified. Whenever possible, Care1st adopts preventive and clinical practice guidelines that are published by nationally recognized organizations or government institutions, as well as state-wide collaborative and/or a consensus of healthcare professionals in the applicable field. The guidelines are reviewed and updated every year.

If you have questions, please contact Network Management, who can assist in connecting you with the appropriate Care1st team member. Thank you.

***Look for more information coming soon about other helpful provider resources on our website.***
